ABOUT US

Sébastien RAGON

Sébastien Ragon, Founder and Managing Director of FUN 2 ACCESS, and also Co-founder and Managing Partner of the American company ACCESSREC LLC since 2013, currently serves on the RESNA ATSC Ground and Floor Surfaces Committee, where he contributes to the development of national standards for accessible surface systems.

This appointment reflects the leadership of ACCESSREC LLC as well as its commitment to ADA-compliant solutions nationwide.

With more than two decades of expertise in inclusive aquatic and ground accessibility, Sébastien Ragon has successfully led a wide range of projects, including :

- Installations for local and municipal authorities
- Partnerships with public and private organizations
- Support for large-scale projects of up to € 3 million

His professional integrity, inclusive vision, and ability to bring stakeholders together around high-impact social projects make him a recognized and respected leader in the accessibility and mobility sector.

**“ WITH OVER 10,000 REFERENCES
WORLDWIDE, ACCESSREC LLC
and FUN 2 ACCESS are the leader
IN THE OUTDOOR ACCESSIBILITY INDUSTRY. ”**

Our philosophy

At FUN 2 ACCESS, everything we do begins with people, the communities we serve, the families we support, and the individuals who rely on us to experience the outdoors with dignity, ease, and independence.

Our mission goes beyond accessibility. It's about empowering freedom of movement, creating welcoming spaces, and delivering products that make a real difference in people's lives. Whether it's a wheelchair user navigating a beach path or a park staff member setting up an accessible event, our goal is to make that experience seamless, safe, and uplifting.

We believe everyone deserves access without compromise. That's why we prioritize our customers above all else. From your first inquiry to your 100th use, your needs drive our innovation, your feedback shapes our improvements, and your satisfaction is our measure of success.

We focus on reliability, ease, and comfort. Our products are designed to be strong and stable, yet simple to install and remove. They're built to last, but even more importantly, they're built to serve. Every mat, panel, and chair we offer is developed with care, from thoughtful design and responsible manufacturing to realworld testing in the environments that matter most.

FUN 2 ACCESS isn't just a company. It's a promise.

A promise to stand by our users, listen to our partners, and lead with heart.

Let's build a more accessible world together.

BEACH & PARK

ACCESS FOR ALL !

There's nothing quite like a day at the beach: Sunshine on your shoulders, a salty breeze in the air, and laughter carried on the waves. These are the moments everyone deserves to enjoy. That's why we create accessibility solutions that bring people of all abilities closer to the water and all the fun that comes with it.

Our ACCESSDECK USA, F2A PRM BEACH MAT, COCOPATH, GRASSMAT, and FUN2WOOD surfaces make it easy to move across sand, grass, and other challenging ground.

F2A PRM ALL-TERRAIN & BEACH WHEELCHAIR, our all-terrain wheelchair, and ACCESSWALK, our all-terrain rollator, let people of all abilities explore the outdoors, while F2A PRM AMPHIBIOUS WHEELCHAIR, our floating beach wheelchair, makes time in the surf safe and unforgettable.

At FUN 2 ACCESS, we believe that nature should be open to everyone. If you have a unique location or need not covered here, we'd love to hear from you. We hope this catalog inspires new ideas, opens new possibilities, and most of all brings a little more joy to your world.

« F2A PRM BEACH MATS ARE DESIGNED TO MAKE OUTDOOR SPACES, ESPECIALLY BEACHES, EASIER FOR EVERYONE TO ENJOY. »

F2A PRM Beach Mat

NON-WOVEN POLYESTER ROLL OUT MAT

Whether you're with a hotel, resort, city, county, national or state park, nonprofit organization, or simply someone who wants to make the beach more welcoming, F2A PRM BEACH MAT is the perfect solution.

Designed to exceed the accessibility norms, F2A PRM BEACH MAT helps create safe, easy pathways for people of all abilities to enjoy the beach. It's a simple, meaningful way to show your commitment to inclusion and to make every visit a little more memorable.

CONNECTOR & HARDWARE SYSTEM

Our **heavy-duty connectors** are designed to stay secure under tension, ensuring a reliable connection between mats. To link two mats, simply insert our innovative plugs into the connector holes for a smooth, seamless join.

The entire system is **100% barrier-free** and fully compliant with accessibility norms. Offering safe and accessible transitions for all users.

“ Whether you need a permanent path or a temporary access route, F2A PRM BEACH MAT offers a simple, portable solution that rolls out quickly and works beautifully for people using wheelchairs, walking aids, strollers, or just bare feet. It’s durable, easy to install, and ideal for sandy environments where access matters most. ”

SMART DESIGN, SEAMLESS INTEGRATION

F2A PRM BEACH MAT doesn’t just perform well, it looks great too. Its thoughtfully chosen colors offer both function and visual appeal. The blue option provides high visibility, making access routes easier to spot for those with visual impairments. The brown and tan option blends naturally into outdoor settings like parks and beaches for a more subtle look.

Widths
0,92m / 1,52m / 1,82m / 3m
Lengths
7,5m / 10m / 15m / 30m

BETTER ACCESS, BETTER VALUE

F2A PRM BEACH MAT offers one of the most cost-effective ways to create a reliable beach access route. It delivers exceptional value without sacrificing performance. Unlike many competitors whose products require frequent replacements, complex installation, or high maintenance costs, F2A PRM BEACH MAT is built for **long-term use** with minimal upkeep. It’s an economically beneficial solution that saves time, effort, and money, while ensuring high-quality access for all.

COMFORT FIRST, SAFETY ALWAYS

F2A PRM BEACH MAT is designed with people in mind, especially those barefoot on the sand. Its soft, non-woven polyester surface stays cooler under the sun, making it far **more comfortable** to walk on during hot summer days. No sharp edges, no harsh seams, just a smooth, gentle surface that’s **kind to bare feet and hands**.

F2A PRM BEACH MAT also provides a safer grip for all users, including children, seniors, and those using mobility devices, and because its edges don’t require extra finishing, there’s less risk of cuts during setup or takedown. It’s all about easy, safe access, no stress, and no worries.

FAST SETUP, EASY CARE

F2A PRM BEACH MAT is designed to make your life easier. Two people can roll out a 1,52 m wide x 30 m long section in under 10 minutes, no heavy equipment needed. When it’s time for cleanup, maintenance is minimal. Just sweep, blow, or rinse with a pressure washer. Thanks to its water **permeable** structure, sand naturally sifts through, keeping the surface clear and ready to use.

SUSTAINABLE MATERIALS, MINIMAL IMPACT

F2A PRM BEACH MAT is designed with sustainability in mind. Made from **Recycled UV-stabilized polyester**, it is fully recyclable after use, helping to reduce environmental impact. It can be installed and removed easily in accordance with environmental regulations, making it a responsible choice for protecting the natural beauty of beaches and outdoor spaces.

“**EXPLORE FULL PRODUCT SPECIFICATIONS, OPTIONS AND FEATURES OF BEACH ACCESS & MOBILITY MATS AT www.FUN2ACCESS.com**”

TOUGH BUILD, LIGHT FEEL

F2A PRM BEACH MAT is built to last. Its edges **won't fray**, and the surface **resists wear and tear** with regular use and proper care. Thanks to its strong yet lightweight construction, it's easy to carry, weighing just 2,2 kg / m², and can be handled by one or two people with ease.

The non-woven polyester material offers the best of both worlds: strength and flexibility. It stays firm over soft sand while gently adapting to uneven terrain. And when the season ends, simply roll it up and store it, no fuss, no buildup. Unlike some competitor products, sand won't get trapped underneath, so your mat stays just as light as the day you first laid it down.

F2A PRM BEACH MAT is backed by a **5-year warranty**, giving you long-term confidence with every installation.

GROUND ACCESSIBILITY & MOBILITY

BUILT TO PERFORM. READY FOR ANYTHING.

ACCESSDECK USA, is a high-strength, non-slip panel system proudly made in the USA. Engineered for both leisure and heavy-duty use, it supports everything from pedestrian traffic to maintenance and utility vehicles. Whether you're protecting ground surfaces for an event or creating a stable pathway in challenging environments, ACCESSDECK USA delivers dependable performance you can count on.

PROVEN DURABILITY. WEATHER READY.

ACCESSDECK USA is made from high density polyethylene (HDPE), a material known for its impressive strength-to-weight ratio. It provides a solid, stable surface with excellent traction, ideal for a wide range of recreational and functional uses. Engineered for the outdoors, its UV protection, weather resistance, and chemical durability help it withstand harsh elements without cracking or breaking down over time.

EASY TO MOVE. SIMPLE TO STORE.

ACCESSDECK USA is designed for convenience. Its panel sizes are compact and manageable, with standard dimensions that fit easily in the bed of most pickup trucks. Installation and removal are quick and tool-free, requiring just two people to complete the job. The space-saving design also makes storage and shipping more efficient, helping reduce overall handling costs.

NATURAL TONES. COASTAL COMFORT.

ACCESSDECK USA comes in light blue or light tan, two colors designed to complement outdoor environments while remaining visually effective. The tan option blends effortlessly into sand and natural landscapes, while the blue option stands out for improved visibility. These lighter tones also **absorb less heat**, making them more comfortable for barefoot users in sunny conditions. Both colors coordinate seamlessly with our F2A PRM BEACH MAT systems, available in matching shades of blue or tan, for a clean, unified look across your entire accessible pathway.

FLEXIBLE CONNECTIONS FOR ANY SETUP

Each ACCESSDECK USA panel features **four corner connection holes and six additional attachment points**, allowing for a wide range of layout options.

Whether you're creating a straight path, a platform, or a custom formation, these connection points make it easy to build a configuration that fits your exact needs.

TWO SIDES. BUILT FOR FLEXIBILITY.

One of the standout features of ACCESSDECK USA is its **reversible design**. Each panel has a unique tread pattern molded into both sides to suit different needs. One side features a wheelchair and pedestrian-friendly non-slip surface, **offering safe, comfortable access**, even for light vehicles. The other side provides a rigid, heavy-duty tread that adds extra ground grip, perfect for larger vehicles like ATVs and maintenance equipment.

PRODUCT SPECIFICATIONS

- ▶ Standard panel weight : Approximately 28 kg
- ▶ Dimensions : 1,22 x 1,83 m
- ▶ Thickness : 12.7 mm
- ▶ Supports loads up to 18 tons (depending on ground conditions)
- ▶ Recessed connection holes
- ▶ 10 Irrigation holes
- ▶ Backed by a 6-year warranty

ADVANTAGES OF HDPE MATERIALS

- ▶ Will not warp, rot, crack, or delaminate
- ▶ Resistant to extreme temperatures
- ▶ Easy to clean and low maintenance
- ▶ Anti-slip tread patterns
- ▶ Comfortable for those walking barefoot

BEACH & GROUND ACCESSIBILITY MADE SIMPLE

YOUR NATURAL PATH TO ACCESSIBILITY

COCOPATH was thoughtfully created to make outdoor spaces more welcoming, inclusive, and easier to navigate. Crafted from 100% natural coconut fibers (coir), this **eco-friendly** matting system offers a smooth and stable path over soft or uneven ground like sand, grass, mulch, gravel, or even snow.

Whether you're planning a beach wedding, organizing a park event, or simply looking to create a safer, more accessible path at beach club or hotels & resorts, COCOPATH fits right in thanks to its light brown color that blends seamlessly with natural surroundings while offering real comfort where it's needed.

LIGHTWEIGHT,
ROLLABLE, AND
EASY TO HANDLE,
COCOPATH IS JUST
AS PRACTICAL AS
IT IS SUSTAINABLE.

IT'S A SMART
SOLUTION FOR
ANYONE WHO
WANTS TO CREATE
TEMPORARY OR
LONGTERM ACCESS
WITHOUT LEAVING
A MARK ON NATURE.

WITH COCOPATH,
ACCESSIBILITY
FEELS EFFORTLESS
AND INVITING FOR
EVERYONE.

LIGHTWEIGHT & TRAVEL READY

COCOPATH is made to move with you. Weighing just 1,95 kg per m², this mat is lightweight, easy to handle, and a breeze to roll out or pack up. From setting up for an event to making a beach path more accessible, or even creating a safer walkway at home, COCOPATH keeps things simple. No special tools, no complicated setup, just unroll and go. And when it's time to store or transport, it fits neatly into compact spaces, ready for your next adventure. It's convenience without compromise.

SAFE, DEPENDABLE & RELIABLE

COCOPATH is designed to help everyone feel secure. Its slip-resistant surface provides **strong traction**, even on soft or wet ground like sand, grass, gravel, or mulch. This helps reduce the risk of slips and trips, giving users peace of mind with every step. Each mat is carefully finished with durable **cotton-stitched extremities** that keep it from fraying and hold its shape through repeated use. Thanks to its low-profile design and strong grip, it stays in place and offers a stable platform that ensures security, stability, and peace of mind for all users.

QUALITY YOU CAN COUNT ON

COCOPATH stands out for combining quality, durability, and affordability in one natural matting solution. Designed for daily use in real outdoor conditions, it holds up against sun, saltwater, and heavy foot traffic without breaking down like many synthetic alternatives. It's a trusted choice for those who want a surface that performs season after season.

WIDTHS : 1 m & 2 m
LENGTHS : 10 m & 20 m

COCOPATH can also be custom-cut to meet your needs (minimum length of 3 m).

COCOPATH offers unmatched value for those looking to create accessible, natural-looking walkways that don't compromise on reliability or appearance.

cotton-stitched extremity

FUN2WOOD - Premium wooden pathway

Authenticity and Performance Made in France

FUN2WOOD by FUN 2 ACCESS is the next generation of pathways in natural wood, premium, designed and assembled in our workshops in the **Grand Est, France** to withstand the demanding conditions of the seaside. Made from pressure-treated Nordic pine, Class 4 and above, **certified FSC and PEFC**, it offers outstanding durability and a perfect natural integration for beaches, sandy areas, grassy areas, and gravel.

Its modular design and modern styling provide a comfortable, safe, and attractive access route for all users: pedestrians, strollers, wheelchairs, or light maintenance vehicles.

More than just a walkway, FUN2WOOD adds an elegant and luxurious touch to your beaches, hotels, and natural spaces. It combines strength, design, and universal accessibility, while remaining the most competitively priced product on the market.

Inspired by products available on the market, it improves every detail to offer a **more durable, safer, and more attractive solution**, on beaches and sandy areas.

Fun2wood components and accessories

TECHNICAL SPECIFICATIONS

- ▶ Main material : Premium Nordic pine, pressure-treated Class 4+
- ▶ Certifications : FSC & PEFC
- ▶ Standard color : Wood brown

Optional FUN2WOOD LINK, made of brown anodized aluminum for simple section connection.

SKUs and Specifications

- ▶ Assembly : 16 slats of 110 mm wide, connected by rot-proof polyester straps
- ▶ Fasteners : A4-316L stainless steel (marine grade)
- ▶ Surface : **Grooved anti-slip slats** for maximum safety

Composition

- ▶ 16 interchangeable wooden boards
- ▶ 1,96 kg per slat (1 m version)
- ▶ 2,95 kg per slat (1,5 m version)
- ▶ Complete hardware : 84 to 86 screws and washers A4-316L stainless, resistant to salt and marine corrosion.
- ▶ Polyester straps

Benefits

- ▶ Maximum durability in marine environments (treated wood + 316L stainless).
- ▶ Stable, anti-slip surface.
- ▶ Simple installation and easy slat replacement if needed.
- ▶ Eco-friendly : recyclable, environmentally responsible materials.

Slat replacement

- ▶ Each slat can be replaced individually in a few minutes : Simply lift the pathway and unscrew the slat from the strap in rot-proof polyester, then install a new one.

Three (3) - year warranty

- ▶ FUN 2 ACCESS warrants the product FUN2WOOD for a period of **three (3) years** from the date of purchase against any manufacturing defect or material defect.

GRASS MOBILITY MADE SIMPLE

GRASSMAT is a durable, roll-out matting system designed to protect and stabilize grassy or soft ground surfaces like sand, soil, snow, mulch, and woodchips. Installed directly over existing terrain, it offers a fast and cost-effective way to create reinforced surfaces for events, wheelchair and pedestrian paths.

ITS UNIQUE OSCILLATED MESH STRUCTURE IMPROVES TRACTION AND SLIP RESISTANCE BY UP TO 97% COMPARED TO STANDARD MESH, PROVIDING A SAFER, MORE RELIABLE SURFACE FOR BOTH PEOPLE AND VEHICLES. GRASSMAT ALSO ALLOWS GRASS TO GROW THROUGH THE OPENINGS, BLENDING NATURALLY INTO THE ENVIRONMENT AND BECOMING NEARLY INVISIBLE WITHIN A WEEK.

GRASSMAT is manufactured from recycled, UV-stabilized HDPE and is fully recyclable, containing a minimum of 20% recycled polymer.

WHERE GRASSMAT WORKS BEST

- ▶ Pedestrian and wheelchair-accessible paths (accessibility norms compliant)
- ▶ Walkways for school, college, and university ceremonies and events
- ▶ Nature and forest trails
- ▶ Temporary detour routes at construction sites
- ▶ Pathways on residential front lawns
- ▶ Temporary or permanent walkways for outdoor events and venues

“ **WHETHER YOU'RE PLANNING A FIELD EVENT, IMPROVING ACCESSIBILITY, OR PROTECTING A HIGH PEDESTRIAN TRAFFIC LAWN, GRASSMAT HELPS KEEP YOUR GROUND HEALTHY WHILE OFFERING A SAFER, MORE STABLE SURFACE FOR EVERYONE.** ”

WHY CHOOSE GRASSMAT ?

Looking for a ground protection solution that's safe, strong, and easy to install? GRASSMAT is ideal for a variety of temporary or permanent applications.

- ▶ Quick and cost effective to install
- ▶ No digging or soil removal needed, but drainage is required.
- ▶ Slip-resistant for added safety
- ▶ Grass grows through the mesh for a natural look
- ▶ Protects and reinforces high-traffic pedestrians outdoor surfaces

AVAILABLE SIZES :

**Rolls of
1 m or 2 m wide
10 m or 20 m long
(custom lengths available)**

« It's simply the highest quality beach wheelchair at the most affordable price. »

FLOATING BEACH WHEELCHAIR

F2A PRM AMPHIBIOUS WHEELCHAIR makes it easy for wheelchair users to join in on the fun and enjoy the outdoors to the fullest. With floatable armrests and large wheels, it smoothly moves from the beach right into the water. Whether you're relaxing in the ocean or floating in a pool.

F2A PRM AMPHIBIOUS WHEELCHAIR lets you soak up the sun, splash around, and make lasting memories with the people you love.

COMFORT THAT GOES WHERE YOU GO

F2A PRM AMPHIBIOUS WHEELCHAIR is designed for anyone looking to enjoy the outdoors with more comfort and ease. With a supportive, reclinable seat and a stable, floatable design, it moves smoothly across sand and into the water. Whether you're at the beach, lake, or pool.

F2A PRM AMPHIBIOUS WHEELCHAIR helps make more places feel welcoming, and more moments relaxing, fun, and accessible to all.

RECLINE AND ROLL WITH EASE

F2A PRM AMPHIBIOUS WHEELCHAIR features a three-wheeled design with a comfortable, ergonomic seat that keeps users in a relaxed, reclined position. The seat offers three adjustable positions: One for easy transfers into the chair, and two reclining options for comfort on land or while floating. Adjustments are simple with a quick pull of the chain on the back, so you can enjoy the ride and the water without hassle.

QUICK SETUP AND EASY STORAGE

F2A PRM AMPHIBIOUS WHEELCHAIR is made up of just six parts: The frame, two armrests, and three large wheels, making it quick and easy to assemble or take apart in just minutes. No tools needed! The wheelchair also folds down for easy transport in most vehicles and compact storage between adventures. Wherever the day takes you, F2A PRM AMPHIBIOUS WHEELCHAIR is ready to roll!

WEIGHT CAPACITY UP TO 135 KG

F2A Floating Beach Wheelchair successfully passed dimensional, performance, static, impact and fatigue testing according to RESNA WC-1:2009 standards. It conforms with CE.

ALL-TERRAIN WHEELCHAIR FOR ALL SURFACES

YOUR GO-ANYWHERE CHAIR

F2A PRM ALL TERRAIN & BEACH WHEELCHAIR is an all-terrain wheelchair built to make movement across challenging surfaces easier and safer. Unlike standard wheelchairs, it's built to navigate places where mobility is often a challenge, such as beaches, parks, pools, trails, turf, gravel, and snow. Whether you're navigating new terrain or simply spending time outdoors, F2A PRM ALL TERRAIN & BEACH WHEELCHAIR helps you get there with confidence.

EXPERIENCE THE OUTDOORS, TOGETHER

At FUN 2 ACCESS, we created ALL TERRAIN & BEACH WHEELCHAIR with a simple goal: to help more people enjoy the outdoors without limits. Whether you're exploring a park, rolling along a trail, or spending time with loved ones, F2A PRM ALL TERRAIN & BEACH WHEELCHAIR is designed to support you every step of the way. With a focus on freedom and accessibility, we've made sure every detail helps you enjoy the outdoors at your pace, on your terms.

“ The most versatile & sturdiest All-terrain wheelchair, built to explore and easy on your budget. ”

STRENGTH MEETS SUPPORT

F2A PRM ALL TERRAIN & BEACH WHEELCHAIR is made with durable aluminum and stainless steel, paired with reliable rubber wheels for a smoother ride. The two rear swivel wheels make it easier to move across a variety of surfaces, while built-in brakes keep the chair safe and steady when not in motion. With three reclining positions, a spacious seat, and a supportive footrest, F2A PRM ALL TERRAIN & BEACH WHEELCHAIR is designed to help users feel confident, secure, and comfortable wherever they go.

FOLDABLE AND TRAVEL FRIENDLY

F2A PRM ALL TERRAIN & BEACH WHEELCHAIR folds easily for quick transport and compact storage, making it simple to take wherever your day leads. It also assembles and disassembles in minutes, no tools needed.

WHY PEOPLE LOVE F2A PRM ALL TERRAIN & BEACH WHEELCHAIR

- ▶ Front-wheel brake system for added safety
- ▶ Durable rubber wheels that are easy to repair (unlike PVC)
- ▶ Colorful, eye-catching fabric and armrests with a spacious back pocket
- ▶ Supports up to 135 kg
- ▶ Reclining and folding back seat for flexibility and convenience
- ▶ Wide seating frame for added comfort and room
- ▶ Easy to push and maneuver over tough terrain and uneven surfaces (Note: It could be challenging pushing someone over 70 kg over soft sand)
- ▶ Adjustable frame and beach wheels to fit your needs

accesswalk

DESIGNED FOR ALL- TERRAIN MOBILITY

FREEDOM TO MOVE WITH CONFIDENCE

ACCESSWALK Rollator Walker is designed specifically with this in mind. Unlike standard walkers, the ACCESSWALK® is built to navigate challenging surfaces with ease, making it the perfect mobility aid for beaches, parks, or any outdoor adventure.

Benefits of the ACCESSWALK on Sand

Navigating sand can be a challenge for many mobility devices, but the ACCESSWALK Rollator Walker is uniquely suited for this terrain.

Enhanced Traction : The wide, treaded rubber wheels are designed to distribute weight more evenly, preventing the rollator from sinking into soft sand. This ensures smooth movement along beaches or sandy trails.

Stability and Balance: Thanks to its ergonomic design, the ACCESSWALK provides extra stability on uneven surfaces. You won't have to worry about tipping or losing balance, making beach walks enjoyable and stress-free.

Reduced Effort: Unlike traditional walkers that struggle with loose sand, the ACCESSWALK minimizes resistance and glides effortlessly. This reduces the strain on

your arms and legs, allowing for a more comfortable, energy-efficient experience.

Key Features

All-Terrain Wheels: The ACCESSWALK is equipped with large, yellow durable wheels that provide superior traction and stability, even on soft surfaces like sand. Whether you're strolling along the shoreline or exploring a sandy path, our rollator gives you the support and freedom to move confidently.

Lightweight but Sturdy Frame: Crafted with a lightweight yet durable anodized aluminum frame, the ACCESSWALK is easy to maneuver while still providing robust support. This makes it ideal for individuals who need a reliable walker that doesn't feel cumbersome or difficult to transport.

Comfortable Seating and Adjustable Handheld: When you need to rest, the ACCESSWALK has a built-in seat with an adjustable handheld. Whether you're relaxing by the water or taking a break from a beach walk, you'll always have a comfortable place to sit.

User-Friendly Braking System: The intuitive hand brakes ensure that users have complete control, even on slopes or uneven terrain. This makes it easier to stop and start on sandy surfaces, giving you peace of mind while walking.

Foldable and Portable: The rollator easily folds for convenient storage and transport. Whether you're traveling to the beach or heading to a park, the ACCESSWALK is designed to fit effortlessly in your car or other transport.

Specifications

sandfence

KEEP SAND OFF PATHWAYS, ROADS, PROPERTIES, AND BUILDINGS

PROTECTING PATHWAYS & PRESERVING DUNES

FUN 2 ACCESS Sand Fence is designed to make a big difference in coastal areas. By creating a barrier against wind and drifting sand, it helps protect walkways, roads, nearby properties, and buildings. At the same time, it plays a vital role in rebuilding and preserving dunes, an essential part of maintaining healthy shorelines. Easy to install and built to perform, this simple system helps trap sand where it belongs and keeps outdoor spaces cleaner, safer, and more sustainable for everyone.

FUN 2 ACCESS Sand Fence

- ▶ Packed in a compact 33 cm x 33 cm bag
- ▶ Unrolls to 15 m long and 0,92 cm high
- ▶ 1 year warranty

SMART DESIGN. STRONG RESULTS.

- ▶ Built for simplicity and strength
- ▶ Non-woven, non-fraying fabric
- ▶ Lightweight, just 0,24 kg per m²
- ▶ Yet tough enough to handle the elements
- ▶ Making setup quick and easy
- ▶ No trenching is needed
- ▶ Stay in place through changing weather
- ▶ Reclining and folding back seat for flexibility and convenience
